

## Recent Operations

By Paul Rardin

Candid camera fans have a lot of fun. But I've been having a lot of fun with a little movie camera. I have accumulated several interesting shots. With several hundred feet of film on hand at present I have a show that lasts for about 50 minutes. Some of the subjects who fill the screen would never nearly faint if they could see themselves in action. I have many shots that were taken when the subject was unaware. Then, I have several shots which were taken when the subject was looking his "prettiest." And any time a fellow poses for a movie shot (unless he's a dyed-in-the-wool actor) you are sure to have something unusual happen. The shadow is flashed on the screen.

I haven't said much about filming in this column for the past several months. But—now that I have moving pictures of some of my catches I'm not afraid to speak up about some of my good luck at the pictorial pastime. I have a few shots that would make the best filmmaker on the Lake Okechobee (turn on the eye. Imagine being lucky enough to have a friend standing out a navy gun on the lake you snag a six pound bass. Then imagine some more how nice it is to be back in your easy chair and let your friends about camera and the big fellow just as the scene flashes on the silver screen. After all, guess you've got a good reason for having a movie camera.

Among my movie collection I have a lot of scenes that will give you a good idea of the Pictures of many youngsters fill across the screen with every showing. Though some of the shots are only a year or so old, I can see the vast difference in the youngsters today and the time when I was a youngster. What will it be 20 years from now?

It's a lot of fun to take pictures of flowers, green vegetables and waving cane here in the middle of winter. I've taken a lot of pictures north (to Georgia) at Christmas time and show them to the home-folks. Pictures like that sure bring on a lot of talk.

Back in the days when I had political aspirations I thought it would be fun to have my own movie of my delivering one of my campaign speeches. As far as delivering the campaign speech I'm here to tell you that the finished product was one of the funniest looking things I ever saw. There I was—laying it out with both hands—putting every ounce of energy into it—sweating, etc.—etc.—and had it not been my wife who made the picture I'd have sworn it was some other candidate. So that piece of film has been relegated into limbo. And I'll spend my spare time taking pictures and not posing for them.

I have one shot in the movie parade of a well known Canal Point resident but it is what a movie magnate would call a "stiller." I used up several feet of film but found before finishing the shot that the gentleman subject was hard and fast asleep. Anyway, it's a good picture.

Not agent for this trick I'd like to find that the best pictures are about as cheap as the ordinary snap shot variety. My friends, if you want a likeness rattling back and forth across the silver screen—just stop me most any day and I'll be glad to take your picture. Naturally, I hope your picture turns out better than the one and only one for which I pose.

## Wardworth Giving To The Needy

of the Wardworth of Belle Glade contains a trunk of distribution of relief to the needy. The trunk is being given to the needy by the Wardworth family last night. The trunk contains a large quantity of clothing and shoes over 100 pairs of shoes and in less than 24 hours the trunk will be fully completed. It was reported.

## Caffey Is New Head Of Bank of Pahokee McIntosh Retires

Illness of President Cause  
Of Change In Bank's  
Personnel

At a meeting of the board of directors of the Bank of Pahokee last Friday, J. C. Caffey, Mobile, Ala., was elected president of the institution according to a statement issued by H. M. McIntosh, retiring president. Mr. McIntosh is retiring from active management of the bank on account of ill health. He retains his interest in the bank and will continue to live in Pahokee where he recently built a new home on Bacon Point.

The new president of the bank comes to Pahokee highly recommended and has a thorough knowledge of the bank's affairs, having been connected with the American National Bank and Trust company of Mobile for the past five years. At the time he tendered his resignation he was cashier of that bank.

President Caffey announced that the same policies will remain in force at the Bank of Pahokee and the same services will be extended to the friends and customers of the bank. The bank, which was organized in 1913, is now in its twenty-sixth year. The condition of the bank at the close of business on January 31, 1939, and published elsewhere in this newspaper, shows that approximately 90% of the deposits are held in the bank in cash on hand, amounts due from banks and bonds. This healthy condition of the bank proves that it is rendering an efficient service to the many Everglades residents in whose hands the bank's funds are deposited.

Rupert Mock, who has been cashier of the bank for more than two years, retains that position. President Caffey announced that the bank is now in a position to handle all the business of the bank in cash on hand, amounts due from banks and bonds. This healthy condition of the bank proves that it is rendering an efficient service to the many Everglades residents in whose hands the bank's funds are deposited.

## 42 Firms Join To New Credit Bureau Formed In Glades

Directors In Meeting Hear  
Report of Gardner,  
Secretary

Directors of the month old Everglades Credit Bureau, Inc., met Tuesday afternoon at the bureau's office in the Theatre building in Belle Glade Thursday night to discuss such matters as the bureau's financial condition, the collection of past-due accounts supplied to individuals or companies outside the bureau membership. C. Gardner, active secretary of the bureau, reported that the bureau's financial condition is good. The directors heard a report by C. Gardner, active secretary of the bureau, that the bureau's financial condition is good. The directors heard a report by C. ## DENTAL CLINIC TO MEET ON TUESDAY

Officials of the Underprivileged Children's Dental Clinic stated yesterday that an important meeting will be held next Tuesday night in the school auditorium at Pahokee. The time of the meeting has been set for 7 p. m. All members of the clinic committee are urged to be present since important business matters will come up for discussion.

## Sugar Company To Aerate Water From Drainage Canals

To Determine Whether It  
Is Advantageous  
To Crops

The United States Sugar Corporation began irrigation tests this week to determine whether constant circulation and aeration of water in drainage ditches would be advantageous to crops grown on adjacent fields.

The corporation has converted the highway on the east of Bay into the experimental field and has installed a Couch pump, connecting bulkheads, adjacent to the highway, and has changed mole drains so that alternate moles at eighth-mile intervals cut the water level in the canal and the old drain bed back of the field reaching the opposite side. This latter operation forces water in the direction in one mole drain and the opposite direction in the next.

It is expected that the ground water level will be kept at a constant level and that it can also be kept in constant circulation by these newly adopted methods. By the use of the pump and bulkheads it is expected that water in the drainage ditches will run first in one direction and then in the other, keeping the water level in motion.

Favorable results from the tests are being carried out for the plan in other cane fields.

## Feb. 15 Deadline To Buy Auto Tag

Governor Cone Thursday  
announced another extension  
of the time for late auto registra-  
tion. The final deadline has been  
set as February 15.

## CALL FOR BIDS ON ROAD 26 LINK

Bids for construction of the 13-mile "missing link" of state road 26 were called for Thursday of this week. Construction of the road will open up a new highway to the south and provide a direct route between the rich Everglades region and Miami and Ft. Lauderdale.

The 13-mile link in road 26 has not yet been graded and completed. It will be graded and completed in at least three months for completion, it was learned. It lies between the Dade county line and Twenty Mile Bend in Broward county.

## SPAGHETTI SUPPER ADJUDGED SUCCESS

The third annual spaghetti supper, sponsored by members of St. Mary's Catholic Church, was held at the Community Clubhouse last Thursday night, and was a great success. Over 300 guests were served during the evening and all expressed appreciation of food, service and entertainment.

Decorations consisted of a beautiful array of flowers and added much to the welcome appearance of the room. Father Lawrence Flynn was present in addition to a number of parishioners and friends. The supper was a success and the committee was well pleased with the results. The committee was well pleased with the results. The committee was well pleased with the results.

## Work On Road 25 Is Progressing At An Agreeable Speed

Between Three and Four  
Hundred Feet Being  
Built Daily

The section of Road 25, awarded to the Eberbach Construction Company of Tampa, is being rebuilt at the rate of 300 to 400 feet per day, according to information received at the scene of operations. Three complete barge crews are working on the project, two of them employing three shifts every 24-hour period.

The advance dredge, or dipper dredge, is now located about two miles from the intersection of Road 25 and working toward that point. The middle barge, or drill barge, is in the canal, and the one-half mile from the intersection and the largest crew of workers is employed on the rock dredge which is approximately one mile east and north of the bridge at Six Mile Bend.

The dipper dredge is employing a crew of about 100 men, and is widening and scooping out large quantities of loose mud from the canal sides and bottom. The material removed is being piled along the north bank of the canal. The drill barge, employing a crew of about 50 men, is driving the rock at the rock bottom of the canal and dynamiting the rock from the canal bed, about twenty-five feet below water level. Three dynamite drills are being bored on each side of the canal bottom and each blast loosens rock for a distance of about 100 feet.

The new road link is being built directly along side of the old road bed and is cleared, ready for rock material, in a three mile stretch.

## Fire Control Dist. To Help Town Clean All or in Vacant Lots

Saturday Is Day Set Aside  
To Remove Fire  
Hazards

Mayor Arthur Wells reported to the council last Wednesday night that the Everglades Fire Control District had offered to burn off remaining dry grass and brush in the vacant lots of the city limits. Wells said that W. M. Stafford, chief of the Fire Control District, had agreed to have the necessary men and equipment to Belle Glade on Saturday in order to co-operate with local firemen in removing the extreme hazard of fire.

An ordinance was adopted on first reading providing for the removal of fire hazards by the Fire Control District. The ordinance provides for the removal of fire hazards by the Fire Control District. The ordinance provides for the removal of fire hazards by the Fire Control District.

L. E. Will, Belle Glade fire marshal, agreed to render all necessary aid to the District and to check and prevent possible mud fires that might start from the brush fires. Mr. Will went to the scene of the brush fires and the ordinance should be exercised by everyone in the Everglades, citing the statement by the Everglades Fire Control District.

The ordinance was adopted on first reading providing for the removal of fire hazards by the Fire Control District. The ordinance provides for the removal of fire hazards by the Fire Control District. The ordinance provides for the removal of fire hazards by the Fire Control District.

## Doped Hamburger Seized In Glades

Doped hamburger was reported seized in seven lots in the Lake Okechobee region last Saturday by members of the State Agricultural Department. The hamburger had been treated with sulphite and was seized in Pahokee, Belle Glade and Moore Haven.

S. Taylor of the chemistry division of the department said no prosecutions had been started because inspectors could not determine whether the chemical was added locally or by packers in Miami.

Sulphite is an acknowledged powerful preservative, dangerous to health because of injury to the digestive tract.

## Special Election On Auditorium Scheduled Apr. 4

Freeholders of Belle Glade  
To Participate In  
Balloting

An ordinance necessary for a special election to pass on issuance of \$25,000 in municipal bonds for the improvement of the town's reading rooms and municipal auditorium, in Belle Glade was passed on first reading by members of the Belle Glade town council in session Wednesday night.

The ordinance set the election for Tuesday, April 4, and announced that the registered freeholders and qualified electors of the town of Belle Glade will be called upon to vote on the town's freeholders providing the ordinance passes reading a second time. It provides for a governing body of five members, three of whom will be elected by the town's freeholders and would give Belle Glade a much needed high school building.

The council also agreed to order another bond issue ordinance drawn up providing for issuance of \$25,000 in municipal bonds for the improvement of the town's reading rooms and municipal auditorium, in Belle Glade was passed on first reading by members of the Belle Glade town council in session Wednesday night.

## Everglades News Goes On The Air

The Everglades News is on the air! Sounds strange but it's entirely true. Radio station WQAM, Miami, will broadcast more important news stories from the Everglades News beginning tomorrow night at 8:15 p. m. and every Saturday night at 8:15 p. m.

Efforts will be made to present news of importance to the community and to broadcast items of interest to the residents of the Everglades. It is our hope that residents of Miami and other parts of the state will find the items broadcasted from the Everglades News of interest and importance.

In addition, beginning next Monday morning between 7:15 and 7:45, short commercial announcements advertising the Everglades News will be heard over WQAM and continued every Monday, Wednesday and Friday thereafter. All of this is but a part of the program being launched by the Everglades News to advertise and promote the news of the Everglades.

Don't forget to tune your radio to 560 kc for the "Everglades News" announcements—every Monday, Wednesday and Friday, between 7:15 and 7:45 and every Saturday night at 8:15 p. m. For important excerpts from the Everglades News.

## FOUR BUILDINGS DESTROYED BY FIRE

Fire of unknown origin destroyed four buildings on the south side of Canal Point, including a damaged the side wall of an adjoining fish market Saturday night. The fire started at about 11:30 o'clock and the Pahokee Fire Department reported it under control about two hours later.

The four dwellings were a complete loss, nothing having been saved. The fire started in a building used for the storage of fish and was caused by a gas leak. The fire started in a building used for the storage of fish and was caused by a gas leak. The fire started in a building used for the storage of fish and was caused by a gas leak.

## 99 Cars Produce Out To Northern Marts Past Week

Cabbage In Lead And  
Celery Is In Second  
Place

Cabbage shipments led produce movements from the Lake area this week as 99 carloads hit the road into the West. Thirty-three carloads of cabbages made the market, celery shipments numbered 20, beans 15, potatoes 11, mixed 11, peas 6, radishes 2 and carrots 2.

Belle Glade topped shipment points with a total of 60 cars out for the week. South Bay's shipments numbered 30, Polk's 12, Canal Point 4, Lake Harbor 2 and Cardwell 1. Heaviest shipment day was Tuesday when 23 carloads were shipped out. Sunday's shipments numbered only 5. Carload records for the season to date now stand at 2442 cars.

Market prices were off slightly from last week. Green string beans were bringing about \$125-140 a ton, peas \$110-120, the week's Bell Valentines sold for \$140-160; tender greens at \$140-150 and limas from \$200 to \$250. Cabbage brought from \$120 to \$130, mixed per ton, fresh greens from 65-85 per cwt.

Celery was bringing from \$175 to \$185 a ton, the week's English peas sold at \$175-220 per hamper and No. 1 Bliss potatoes at \$115-150 per bushel hamper.

## Glades Resident Killed When Train Passes Over Body

Bill Gardner Of South  
Bay Meets Sudden  
Death

Bill Gardner, son of A. L. Gardner, one of the early pioneers of the Everglades, was run over and instantly killed by the 9:55 a. m. passenger train from Fort Myers. The body was discovered about eleven o'clock by Willie Brooks, retired Everglades resident, who was on duty at the time. The location of the body about a mile west of town. Deputy John Kirk and Justice of the Peace G. H. Hubbell were notified, the latter pronouncing it suicide. The body was taken to the Berry Funeral Parlor in Pahokee.

Bill Gardner was grown to town in the Everglades, having been a member of the South Bay Baptist church. He was a well known resident of the Everglades and was a member of the South Bay Baptist church. He was a well known resident of the Everglades and was a member of the South Bay Baptist church.

He is survived by his father, A. L. Gardner, one brother, John Gardner, and a sister, Mary Gardner at home in South Bay, and a sister, Mrs. Carl Smith of Lake Worth and Chicago.

Funeral services were held at the Berry Funeral Parlor in Pahokee Tuesday at 2 p. m. The Rev. S. F. Beard, pastor of the Baptist church, officiating. Burial was at Port Mayaca.

## Damaged Mill To Begin Operations

Operations at the State Prison sump mill, which was damaged by fire on January 23, will be resumed next Monday after repairs have been fully completed. The mill was owned by Capt. W. B. Granger, farm superintendent. Damage to the sump mill's roof was estimated at \$10,000.

Another activity at the prison farm will begin with the planting of about 300 acres of soy beans this week. The planting was done by the State Prison farm superintendent. The planting was done by the State Prison farm superintendent. The planting was done by the State Prison farm superintendent.

## Glades Cattle Raising Is Profitable Industry Says G. H. Tucker, Canal Point

He Has 700 Head Under  
Fence On Sand at  
Edge of Muck

"Excessive high cost of land is the only factor preventing further large-scale development of the cattle raising industry in the Everglades muck region," according to G. H. "Duke" Tucker, well known Canal Point farmer and cattle raiser. Mr. Tucker owns a herd numbering approximately 700 head of ordinary range cows and a few light-colored cows and Black Polk bulls. Although the herd is grazing on sand land, a short distance from the mucklands, Mr. Tucker believes that cattle raising in the Everglades muck is one of the promising industries of the region. The cattle are grazing on Mr. Tucker's range lands in the Chancy Bay area, which includes approximately 11,000 acres of land.

Mr. Tucker reports that his large herd is fattening up well and is apparently free of disease. Although he has a price of 10 cents per head, he has not yet sold any cattle so far. However, a good profit, Mr. Tucker believes that the luxuriant grasses of the Everglades region and the year around growing season enables operators to take advantage of smaller grazing territories and larger herds than are possible in attempting to locate suitable grazing areas in the mucklands but the first lot of cattle have been sent to the market. Mr. Tucker, from ten of twelve other farmers and land owners in the region, has been considering cattle operations on the muckland, prevented in doing so only by the high cost of land.

Paul Hardin—Editor &amp; Publisher

ABOUT THIS FELLOW

BURTON H. SCHOEFF

The powers that be in Hillsborough county haven't spoken as yet, and we can't tell who the Tampa candidate will be for governor in 1940. Senator Pat Whitaker is leaning to get his feet wet in the gubernatorial whirlpool and another chap—unknown in state politics—is being groomed by a "certain group" to make the race. The second probable entry from Tampa is none other than Durbin H. Schoeff, father of the five Citrus juva campaign in the state and president of Tampa Trail Tours.

The reason we believe that Schoeff is entertaining ideas about the governor's race is the fact that this week he has left his business in Florida to appear in behalf of the two Townsend old age bills coming up in congress. We don't mean to create the impression that Schoeff isn't interested in the oldsters of the state. Far from that. But, this sudden desertion of the post office of the Tampa Trail Tours president, leads us to

believe that he has other ideas in his head. And these ideas may culminate in tossing his hat into the ring for a state job. Schoeff's five cent citrus campaign has done a lot of good and there is no doubt in our mind that it has moved a lot of surplus citrus from the growers' groves. Of course, somebody had to have the idea. And it might just as well be Schoeff as any other man. But, we are wondering if his juice campaign will carry him to the governor's mansion. Evidently he doesn't believe it will, for he is making an effort to augment it with the vote of the older one whose interest he has taken to heart here of late.

Many a dark horse has won the gubernatorial honors in Florida. And, the coming campaign may be no exception to the rule. However, we're placing Schoeff away down on our list of prospective candidates—that is if he offers for governor.

## President's Ball Swells Polio Fund

Receipts from the Presidential Birthday Ball, held Monday night at the Glades Club, totaled \$48 according to report made by the celebration committee. One-half of the proceeds will be turned over to local health authorities for use in the fight against infantile paralysis and the other one-half will be sent to the national foundation at Warm Springs, Ga.

About fifty couples attended the dance and celebration. A five-piece orchestra furnished music and Myrl Williams, owner of the Glades Club, donated the use of the ballroom. Decorations were arranged by Dr. W. J. Buck and included several large American flags, one framing a large picture of President Roosevelt.

Mayor Arthur Wells was chairman from Belle Glade. Mayor John Dulany chairman from Pahokee and Dr. W. J. Buck and Herbert D. Beck made arrangements for the celebration.

VOTERS MUST REGISTER Mayor Arthur Wells instructed the town clerk to send personal letters to all eligible but not registered voters in town urging that they register in time to vote in possible forthcoming municipal elections.

Or returns can be filed at my office at Court House at any time prior to April 1st 1939.

Respectfully urge upon all taxpayers to meet me at my different appointments and make their returns as provided by Sec. 913 of the Compiled General Laws of Florida, and Chapter 19780 of the 1931 Statutes.

Blanks for making returns for both Real Estate and TANGIBLE and INTANGIBLE PERSONAL PROPERTY, and for the HOMESTEAD EXEMPTION may be secured from me at these times, or will be mailed to taxpayers upon request therefor.

F. A. M. OWENS, JR., County Assessor of Taxes, Palm Beach County, Florida

## Gladers Divide Double Header

Belle Glade's ambitious basketball outfit divided a double-header at the Legion Hall Tuesday night, losing to Delray Beach in an overtime clash 30 to 21 and taking out a 26 to 20 triumph over the Clewiston aggregation.

The score at the end of regulation time in the first contest was 10-11 at 20 to 22. The furious five minute overtime period, resulted in the four point edge by the victors.

Kamlay, Delray Beach's en-garde Japanese guard, racked up a total of five baskets and four gift shots to lead individual scorers. Priest, Beach center, followed with a score of 26, with a brace of free throws for 12 points.

"Buz" Harper led scoring for the Belle Gladians with three buckets and a trio of free throws for 9 points. Score at half-time was Belle Glade 22, Delray Beach 11.

Belle Glade's well heated fire bounced back in the nightcap to trim a rough, hand diving game from Clewiston by a score of 26-24. The scoring was well divided among the Belle Gladians starting with Harper, Scarboro, and Dick Bowman leading with 8 points apiece.

Paul Tillery and S. Clark counted with 4 points apiece. Belle Glade's guests made up the remaining 3 points. Bell led scoring for Clewiston with 11 points and a pair of free throws with M. Logan and M. Palmer adding 7 points apiece.

The game turned into a rough and tumble struggle, the closing minutes of play as the lead changed several times.

# SHIRLEY'S EYES TWINKLE AND A FILM GAG IS BORN

of doing fast work in the world, Shirley Temple, the perfect ideal of the good girl, is beautiful but isn't never, pre-ocious, sweet but never prissy. Never silly, in particular. Because, as in every other healthy youngster, there is perhaps just the suggestion of mischief in Shirley's twinkling eyes of humor.

In her latest picture, "Just Around The Corner," for instance, there is a scene where Franklin Pangborn, in the role of a sentimental apartment house manager, delivers a scorching tirade to Shirley and her boy friend, Bonnie Bartlett. The scene was shot

## 'SA SECRET'

"Shirley Temple thinks she's discovered 'Uncle Sam' of the U.S.A. and tells him a thing or two in 'Just Around The Corner,' her latest 20th Century-Fox picture, playing Sunday and Monday at the Belle Glade Theatre. Claude Gillinwater, Sr., does the listening.

## WATER USE INCREASES

The Belle Glade waterworks department reported this week that consuming figures for the month of January are the largest since establishment of the system. Over four million gallons of water were metered to consumers in the city, it was reported.

## GAS BUGGY DERBY

Bill Pierce announced this week that four entries had already been received for next year's Miami "Gas Buggy Derby." Emerson Clavel, Vaucluse antique auto collector, has entered a 1902 Cadillac. A Flint, Michigan, old auto enthusiast has entered an early wreck and Bill Pierce and Dr. G. W. Young, participants in the first auto derby staged recently, have entered their jalopies. Jack Stark, aviation editor of the Miami Herald, is making arrangements for the annual event in Miami.

## MUST HAVE LICENSE

Mayor Arthur Wells, in answer to numerous complaints, stated at the regular council meeting Wednesday night that all Belle Glade residents who are selling property without an occupational license will be brought into court and dealt with according to the law. The town of Belle Glade has an ordinance expressly forbidding the sale of property, other than personal, by individuals without either or both a town occupational license and a proper realtor's license. Mayor Wells went further to state that the business people of Belle Glade will be fully protected according to law against infringement of their trade and territories by unlicensed outsiders.

## WORK PROGRESS

Further progress on the Belle Glade waterworks extension program was reported as Powers and Archibald construction engineers, continued their contract work on the water plant and treating equipment. Additional equipment is being installed and, in some cases, present facilities are being enlarged. An order has been placed for the additional 75,000 gallon tank and equipment for the two other contracts. Work on all phases of the project will be started by March 1, it was reported.

## \$25 TO FIGHT POLIO

The Belle Glade town council, upon the suggestion of Mayor Arthur Wells, approved a donation of \$25 to the Infantile Paralysis Fund, one-half to remain in the county for local relief and the other half to be used by the national foundation at Warm Springs, Georgia.

## PAHOKEE PLAYS W.P.B.

Pahokee's Ramblers will engage a fast moving group from West Palm Beach, representatives of the Palm Beach Mercantile company sporting Goods Department, at the Pahokee High School Gymnasium Friday night. The contest will start at 8:30 p. m., according to announcements.

# Tent Meeting Will Start On Sunday

Rev. W. L. Head, prominent Baptist evangelist, will begin a tent meeting in Belle Glade next Sunday night, Feb. 5, according to an announcement by Pastor Marion Sentell of the Baptist Church. A large tent is to be transferred from Miami where Rev. Head has been engaged in successful meetings for the past several weeks. It will be erected on S. W. Hillsboro Road in time for the Sunday services. The morning services will be held in the Baptist church building, but the evening services under the tent. All people of all faiths are cordially invited to attend and take part.

Rev. Head was for a number of years an Evangelist of the Baptist Home Mission Board and conducted successful meetings throughout the Southern States. Later he served as State Evangelist for the Baptist Mission Board of Florida and conducted many meetings in this state. From that position he went to a large pastorate in Tampa. After several years in the pastorate he resigned to re-enter the evangelistic field. The evangelist comes to Belle Glade with many years of experience, both in the pastorate and as an evangelist. A man of his stature should encourage all people to co-operate and make his efforts successful.

That a revival is needed, no one can question. With the prayers and efforts of all the Christian people of our community added to the efforts of the visiting Evangelist, the needed revival can be a reality.

## BEAUTIFY CANAL BANKS

Belle Glade town councilmen agreed Wednesday to consider a proposal to improve the canal banks and public property of the community in an extensive beautification program. The proposal was advanced by H. H. Hart, Belle Glade realtor, and a commercial Florida nursery. Proposals included the planting of a uniform number of young Royal Poincianas, or other suitable varieties of palm trees, to be planted along the brink of the canal banks on both roadside from the Belle Glade bridge to the Chosen bridge.
